

BlockBuster® HammerHead® System

DOT-rated, 4X blade life, engineered with wide footprint to minimize road damage.

SAVINGS ANALYSIS 4X Wear Life

\$4,849

City Savings
Per Season—Truck A

\$46,274

Potential Savings
for All 14 Trucks

NOTE: The city of Huber Heights will equip their remaining 13 trucks with BlockBuster HammerHead Systems. Their potential savings per season will be \$46,274.88.

Does not include downtime cost. The Winter Equipment Company manufactures wear systems that can last up to a complete season. Each customer's experience will vary depending on wear factor expectations, weather, operator use, and other variables.

Challenge

The city of Huber Heights, Ohio experiences an average of 26 snow events in a 5 month plowing season. City roads are mainly asphalt with a few miles of chip seal and concrete. The crew is responsible for clearing 430 miles of road. They travel at about 25 miles an hour and encounter obstacles such as manhole covers and bridge joints. The plows hit the ground at the sight of the first snowflake, and roads are expected to be clear at all times. Huber Heights was previously running 6" carbide with steel covers and plow guards. On average, it was changing blades 1 1/2 times a season.

Test Truck A

The city of Huber Heights purchased its first BlockBuster HammerHead on February 5, 2014, and has 7" of blade remaining. It is anticipating 2 full seasons with the BlockBuster HammerHead. The city is happy with the performance of the blade. Huber Heights had a direct savings of \$\$\$ from cutting edges alone. Indirect savings include the cost of maintenance and operational cost behind changing a blade 1 1/2 times per season.

"We are very happy with the performance of the BlockBuster HammerHead. The lifespan is impressive."

Mike Gray, City of Huber Heights, Road Department Supervisor

Key Advantages

The HammerHead® Bullnose Carbide insert allows for multiple attack angles. The Wear Bars are encased with Winter Carbide Matrix® totaling 56 lbs. of carbide protection. The wide footprint protects your road surface from damage caused as a result of snow removal.

You have our guarantee that BlockBuster HammerHead System will last 4Xs longer than a standard carbide blade with a steel cover!
